FEDERALLY FUNDED COMMUNITY MENTAL HEALTH CENTERS AS OF SEPTEMBER, 1980

Community mental health entered a new era in 1963 when President John F. Kennedy sent a message to Congress calling for "a bold new approach" to the problems of mental illness. Later that year the Community Mental Health Centers Act (P.L. 88-164), providing Federal assistance to communities, was enacted. Amended 14 times in the last 15 years as a result of our collective national experience in the development of community mental health services, the Act now requires that centers must from the date of establishment provide to all age groups: inpatient, emergency, and outpatient services; assistance to the courts and other public agencies in screening; provision of followup care for those who have been discharged from inpatient treatment; and consultation and education. During the next 3 years, the centers must develop according to an approved plan: partial hospitalization services, specialized services for children and the elderly, transitional halfway house services, and, unless a waiver is obtained, alcohol and drug abuse services.

The Mental Health Systems Act extends the following grant programs during FY 1981:

1. **Planning Grants** to help communities without a community mental health center (CMHC) develop the necessary plans for a complete center application
2. **Initial Operations Grants** to provide the basic operating funds (on a percentage or deficit basis whichever is less) for new centers
3. **Consultation and Education Grants** to sustain the outreach and preventive programs that are difficult to finance
4. **Financial Distress Grants** for centers which need short-term assistance in maintaining their programs after 8 years of Federal funding have been completed

Since the beginning of the CMHCs program in 1963, the National Institute of Mental Health has funded 789 centers through construction, staffing, and initial operations grants. Many centers have changed significantly over time. For example, some have transferred the services to be provided under the grant to another community agency; others have had to return the funds to the U.S. Treasury because of an inability to mount and finance a share of the CMHC program as required. At the present time, over 750 programs are operational, providing services designed to meet the needs of their communities.

With some exceptions, each CMHC serves a distinct community ranging in size from 75,000 to 200,000 persons. Federal grants from the

National Institute of Mental Health have been made to centers in all 50 States, Puerto Rico, Guam, the Virgin Islands, and the District of Columbia, thus making community mental health services available to 113 million Americans.

In 1969, when the first data on center services became available, a total of 363,000 persons received direct services from CMHCs. In 1977, the number of people under care at CMHCs increased to 1,881,798.

Between July 1, 1965, when the first grant was awarded, and September 1980, the following progress was made:

Total number of centers funded:

with construction grants only	92
with staffing/operations grants	307
with both	390
Total CMHCs	789*

Amount appropriated 1965–1980:

construction grants	$ 294.7 million
staffing grants	1,257.6 million
children's grants	169.6 million
operations grants	779.4 million
conversion grants	80.6 million
distress grants	34.0 million
consultation and education grants	40.9 million
planning grants	2.5 million
facilities assistance grants	0
Total	$2,659.3 million

States with highest number of federally funded centers:

California	56	New York	28
Pennsylvania	47	North Carolina	28
Florida	37	Georgia	25
Texas	37	Massachusetts	25
Ohio	31		

Population served by centers: Operating centers will serve approximately 55 percent of the Nation's population.

*Of these, eight centers returned all funds awarded and thus did not establish a CMHC.

FEDERAL LEGISLATIVE SUMMARY: COMMUNITY MENTAL HEALTH CENTERS, 1963-1980

1963— Adoption of the Community Mental Health Centers Act (P.L. 88-164) authorized Federal grants to support construction of community mental health centers.

1965— The Centers Act was amended (P.L. 89-105) to authorize Federal grants—on a declining basis over 51 months—in support of financing initial cost of professional and technical personnel of community mental health centers.

1967— Authorization of construction and staffing grants was extended (P.L. 90-31) through the fiscal year ending June 30, 1970.

1968— The Centers Act was amended (P.L. 90-574) to authorize Federal grants for the construction and staffing of community facilities and services for alcoholics and narcotics addicts.

1970— The Centers Act was amended (P.L. 91-211) to extend authorization for construction and staffing grants to community mental health centers and for facilities for alcoholics and narcotics addicts through the fiscal year ending June 30, 1973. The 1970 amendments also:

Extended the duration of all staffing grants to 8 years;

Authorized a higher percentage of funds in support of construction and staffing for programs in poverty areas;

Provided for grants to support development of mental health service programs in poverty areas;

Permitted additional staffing grants to support further development of consultation services in all community mental health programs authorized under the statute;

Established a new program of grants to support further development of children's mental health services, including construction, staffing, training, and evaluation.

— The Centers Act was amended (P.L. 91-513) to extend drug programs to include services for drug abuse.

— The Centers Act was amended (P.L. 91-515) by adding a new subsection dealing with maintenance of effort for staffing grants.

— The Centers Act was amended (P.L. 91-616) to add a new section to authorize grants and contracts for the prevention and treatment of alcohol abuse and alcoholism.

1972—The Centers Act was amended (P.L. 92-255) to provide that community mental health centers, funded after June 30, 1972, must provide services for drug abusers living in their service area, if the Secretary determines that such services are necessary and feasible. (Centers must also assist the Federal Government in treatment and rehabilitation programs, when feasible.) Additional funds were authorized to meet the staffing costs occasioned by the enforcement of these new drug program requirements. The legislation also authorized additional funds for special project grants for narcotic addicts and drug dependent persons.

1973—Authorization of community mental health center construction, staffing, and children's services and of alcoholism and drug abuse programs was extended (P.L. 93-45) through the fiscal year ending June 30, 1974.

1975—The Community Mental Health Centers Amendments set forth in P.L. 94-63 authorized Federal funds for "the purposes of initiating new and continuing existing community mental health centers and initiating new services within existing centers, and for the monitoring of the performance of all federally funded centers to insure their responsiveness to community needs and national goals relating to community mental health care."

1977—The Centers Act was extended through September 30, 1978 (P.L. 95-83). This legislation also provided for a 3-year phase in of services by CMHCs with continuation staffing and children's services grants, and changed the review cycle from 90 to 120 days.

1978—The Centers Act was extended for 2 years (P.L. 95-622). New grantees now had a 3-year period in which to phase in services with six services required at startup.

This legislation also allowed CMHCs to retain up to 5 percent of any amount by which income exceeded expenditures for any grant budget year due to collections being greater than projected in the application. This 5 percent could be used for purposes of the grant and was not counted as income in a continuation application budget.

1979—A technical amendment (P.L. 96-32) was enacted to correct or clarify items of health and mental health legislation. This amendment made the grant accounting procedures of P.L. 95-622 applicable to FY 1978 grantees.

1980—The Mental Health Systems Act (P.L. 96-398) re-authorized through FY 81 CMHC initial operations, planning, consultation and education, and financial distress grants and one additional year of financial distress funding, not to exceed a total of six years. P.L. 96-398 authorized through FY 1984 grants for community mental health centers to assist CMHCs in meeting operational costs and permitted CMHCs to apply for other mental health programs under the Act.

1981—The Omnibus Budget Reconciliation Act of 1981 (P.L. 97-35) consolidates Federal funding for services relating to mental health, alcoholism and alcohol abuse, and drug abuse into a block grant for FY 1982, FY 1983, and FY 1984. It provides that most CMHCs initially funded prior to FY 1982 are to receive some portion of each State's allotment for as many years as they would have been eligible for basic staffing or operations support when first funded; however, the amount of the award to each center is not guaranteed. In addition, it repeals the CMHC Act and the various grant programs authorized under the Mental Health Systems Act.

KEY TO CENTER DIRECTORY

MH = Mental Health
MR = Mental Retardation
MHC = Mental Health Center
CMHC = Community Mental Health Center
Comp CMHC = Comprehensive Community Mental Health Center
***** = Operating Center
P = Poverty

***** = Operating Center

An operating CMHC provides a comprehensive, coordinated program of mental health services located in one or more facilities in the community. Whether the services are offered at one or more locations, they comprise a unified program permitting continuity of patient care. (Centers without an asterisk are funded but not yet in operation.)

P = Designated Poverty Area

Poverty areas are those mental health service areas (as designated by Secretary, DHHS) that meet the criteria set forth in the CMHC Act and regulations.

CGT = Construction Grant

Federal grants to construct new facilities, acquire or renovate existing facilities, and to equip facilities were made available to public and private nonprofit agencies whose programs were approved for inclusion in the State plan for CMHCs. This grant program has been updated in the CMHC Amendments of 1975 as facilities assistance and also permits leasing of space for CMHC operations.

SGT = Staffing Grants

Federal grants help cover initial costs of staffing eligible services in CMHCs. Continuation grants to those CMHCs with staffing grants prior to July 1975 are available on a declining percentage basis for the first 8 years of operation, if the grantee meets all of the requirements of the Act.

PTF = Children's Grant

Children's Mental Health Service grants aid in the development of preventive programs that reach out to children in their normal family and neighborhood setting. Continuation grants to those CMHCs with children's grants prior to the enactment of the CMHC Amendments of 1975 are available on a declining percentage basis for the first 8 years of operation if the CMHC meets all of the requirements of the Act.

OPR = Initial Operations Grants

This grant is to assist a CMHC in meeting its cost of operations (other than construction costs) in providing comprehensive mental health services for a mental health service area. Eligible applicants include public and private nonprofit CMHCs (including those funded prior to enactment of P.L. 94-63) and public and private nonprofit entities providing CMHC services, meeting other requirements of law, and planning to provide all required CMHC services within 3 years after grant has begun.

CNV = Conversion Grants

This grant is to assist CMHCs funded prior to July 29, 1975, to expand the range of their services to include the 12 mental health services required to meet the definition of the Act, if the CMHC did not provide these services before the date of the enactment of the 1975 amendments. Eligible services include only those which the center did not provide before the date of enactment of the CMHC Amendments of 1975. Eligible applicants are those who received a CMHC grant prior to the 1975 Amendments (P.L. 94-63) and who have an approved application for an operations grant, financial distress grant, or staffing grant that will have an operating deficit in providing the 12 comprehensive mental health services required by the 1975 amendments.

DIS = Distress Grants

This grant is to assist CMHCs in financial distress which would otherwise be forced to significantly reduce services. It would provide financial assistance to expand mental health services and maintain a level of 12 services without further grant support (except Consultation and Education and Facilities Assistance grants). Eligible applicants are those centers which received a grant before the 1975 amendments and completed their 8th year of funding for such grants and demonstrate that without a grant there will be significant reduction in the type or quality of services or there will be an inability to provide the 12 services needed for the CMHCs to meet requirements of the Act.

C&E = Consultation and Education

These grants are provided to assist established CMHCs in providing the consultation and education services (other than direct services) to individuals and entities involved with mental health. Eligible applicants include any public or private nonprofit CMHC which meets the definition of a "center" in the Act and which has been operating 4 years (DHHS may waive 5th year requirement for funding CMHCs in 3rd or 4th year), or to other entities meeting the definition of "CMHC" in the Act, except that they have not been providing consultation and education services.

Basic support = CMHC was awarded staffing or operations grant during FY 1980.

Specialized support = CMHC has completed basic operations or staffing grant support and received specialized support (Part F, C&E, Conversion, or Financial Distress grants) during FY 1980.

Not currently funded = CMHC was not awarded Federal CMHC funds during FY 1980.

Construction = CMHC was awarded only construction grant(s)

Note: The address of each center is followed by the name of the current director, board chairperson, office telephone, and 24-hour emergency telephone number. For centers not yet in operation, the names of the responsible officers are listed in lieu of the names of directors. (The number preceding the letter describing the type of grant indicates the number of grants.)
